

Week 17 - Final Project Evaluation

Louis Botha, louis.botha@tuni.fi

- .  *The points shown are the max that can be awarded for the criteria, any value between 0 and max values can be awarded based on completeness.*

Project Owner	Seake1, Christian Eriksson
Evaluator	Christian Eriksson

User Authentication (20 points)

Criteria	Points
User registration and login functionality works as expected (8 points)	8
Users can reset their password if they forget it (4 points)	0
User session management is implemented properly (4 points)	4
User authentication is secure, e.g validations, tokens, using password hashes (4 points)	4
Total:	16

Additional comments: Can't reset password.

Listing Creation (20 points)

Criteria	Points
Users can create new listings with all required information (6 points)	6
Proper error handling for missing or incorrect listing information (4 points)	3
Users can edit or delete their own listings (6 points)	3
Listing creation is secure, e.g validations (4 points)	4
Total:	16

Additional comments: Deleting posts missing.

Listing Viewing and Searching (30 points)

Criteria	Points
Users can view all listings (8 points)	8
User can view only own listings (6 points)	6
Users can search for listings by keyword, category, and other filters (6 points)	6
Listing lists and details are displayed in a clear and organized manner (4 points)	3
Proper error handling for missing or invalid listings (3 points)	3
Listing viewing and searching is secure e.g validation, authorization (3 points)	3
Total:	29

Additional comments: I guess listings could be more clear.

Quality and CI/CD (15 points)

Criteria	Points
Tests for all essential functionality (8 points)	6
CI/CD workflows are in place (7 points)	5

Total:	11
--------	----

Additional comments: Both could be improved but good.

Documentation (15 points)

Criteria	Points
Installation and Running instructions (5 points)	5
Project summary (5 points)	3
Project presentation (5 points)	3
Total:	11

Additional comments: Could be improved.

Bonus

	Points
Use of an alternative way of authentication (10 points)	3
Particularly good UI/UX design (5 points)	2
Site is responsive, works on different screen sizes (5 points)	5
Other technology or framework used that add value to the project (5 points)	4
Security analysis report of your site, vulnerabilities and the fixes needed (5 points)	0
Total:	14

Additional comments:

Final Score

Project evaluation criteria will be converted according to this table.

[0%, 25%[=> 0p

[25%, 50%[=> 1p

[50%, 75%[=> 2p

[75%, 100%] => 3p

Total points: ____97_ / 100

Percentage: ____97%__
